

# Enjoy the practical beauty of Brock Deck™

**B**rock Deck Systems from Royal Crown Limited will help you transform your outdoor space into a relaxing, beautiful retreat — where you can entertain friends and family, or enjoy some time in solitude.

## Convenience

You deserve the quality and convenience of Brock Deck. Made with premium Dura Technology™ vinyl, every deck in our product line is virtually carefree. Simply spray it with a hose as needed to whisk away dirt and leaves. There's no staining, painting or sealing required. So you'll spend more time using your outdoor space and less time taking care of it.

## Lasting beauty

The high-quality vinyl materials used to make Brock Deck Systems contain extra UV protection to resist color fading — so your deck will look great for years to come. This element also helps to ensure that your deck's surface stays cool to the touch so bare feet won't get burned.

## Personalization

Since all of our rails and posts can accommodate wiring for custom lighting and outdoor speakers, it's easy to personalize your Brock Deck so you can set just the right mood for parties, relaxing and reading, or even a romantic dinner.

## Now even more beautiful options

In addition to the traditional tread pattern, Royal Crown also offers the stylish Brock Deck LE plank, which features an embossed wood grain pattern available in: Desert Tan, Dove Grey and Clay. With four colors and two designs to choose from, your Brock Deck is certain to suit your style and complement the look of your home. The slip-resistant patterns also make Brock Deck ideal for boat docks and light commercial applications.

## Relax with Brock Deck™

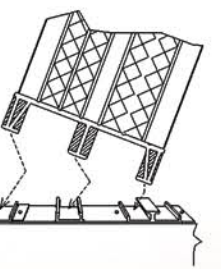

Brock Deck Systems are not only simple to maintain — they're also durable, safe and affordable!

### Brock Deck Construction

Brock Deck all-vinyl decking is tough. We make sure it's durable enough to handle everything you put it through — from patio furniture being rearranged, to children playing, to the heavy loads that come with large gatherings. And the unique vinyl material with protective elements will last through all kinds of weather — for decades to come.

You'll also appreciate these outstanding Brock Deck features:

- Our own, patented Clip Strip® connection system, which helps to endure high loads
- Slip-resistant surface for added safety around pools or after rain

And remember: because your Brock Deck System does not require the use of chemical sealants or stains, you and your family won't be exposed to the ongoing risks associated with touching and breathing these chemicals.

### Limited lifetime transferable warranty

The Royal Crown limited lifetime transferable warranty promises that you'll be able to enjoy Brock Deck Systems, worry free, for years to come. Just contact us, or stop by your local dealer for details.

## Add the right finishing touch

To fully complete the beauty of your Brock Deck™, Royal Crown Limited offers a pleasing selection of railings and columns.

Because they're available in a wide variety of attractive colors and styles to complement your home, you'll find that our railings offer elegance and design flexibility.

Their visual splendor is matched by their exceptional strength and superb construction, starting with 12-gauge aluminum reinforcements to easily support plenty of weight. They'll withstand the toughest weather conditions without cracking or breaking and, with built-in UV protection, they're resistant to color fading.

From contemporary homes to traditional retrofits, we have the right column for you. Royal Décor Antiquity Collection™ columns are built with the same Dura Technology™ vinyl material as our decks and railings, so they won't chip, peel or fade; optional pre-primed surfaces make painting easier. Besides adding a handsome, decorative touch to your home, the available aluminum reinforcements allow vinyl columns to be used for load-bearing applications on porches or patios.

Customizable and carefree, Royal Crown railings and columns add the ideal finishing touch to your outdoor space.

## About Royal Crown Limited

Royal Crown Limited manufactures vinyl products for many applications including decking, fencing, railings and decorative columns. As a member of Royal Group Technologies, North America's largest PVC extruder for over 12 years, Royal Crown is a leader of innovation with a commitment to quality that shows in every product we create.
